10. DESCRIPTION OF ASSIGNMENTS AND TESTS

Detailed instructions, grading criteria and rubrics will be provided as we discuss each assessment.

Late Assignments: Marks will be deducted at a rate of 10% per day or a portion thereof for late assignments (including weekends). Should you need an extension on an assignment arrangement must be made with the instructor at least 48 hours before the assignment is due. Individual assignment due dates will be provided in class. Assignments without agreed upon extensions will not accepted after one week late.

In-class Learning Activities (10%)
Purpose: Through weekly in-class activities, you will practice applying concepts and skills learned by participating in individual and group activities. Activities will take place during class. Attendance in class is required in order to complete the activity for a given week. The lowest grade will be dropped.

Learning Tasks (20%)
Purpose: Through a variety of short learning tasks, you will practice your ability to
- understand course concepts and terminology;
- identify information needs;
- practice reflective writing; and
• develop a **Research Question** and **Search Strategy**

These activities will help you build the skills necessary to complete your other assignments.

**Online Quizzes (10%)**

**Purpose:** Two quizzes completed through Desire2Learn (D2L) will evaluate students’ understanding of course concepts covered in course materials including PowerPoints and handouts. Students may use class notes and materials to complete quizzes. Question types will include multiple choice, matching, fill in the blanks and short answer. Each quiz will be made available for one week. Students will have two hours to complete each quiz.

**Journal Article Evaluation (10%)**

**Purpose:** This assignment will require you to utilize the skills and knowledge you have learned in class to date. You will practice

- finding credible sources related to a research question;
- evaluating and critically reading sources; and
- using APA style citations and references

**Task:** Using your **Research Question** and **Search Strategy** as guides, you will search for scholarly sources related to your research question. You will read, evaluate, cite, and reference each source you find, following the “Evaluation Template” provided by your instructor.

**Journal Article Summary (10%)**

**Purpose:** You will practice

- summarizing the main ideas of a journal article
- using APA style citations and references

**Infographic Assignment (25%)**

**Purpose:** In this assignment you will work on the next step in the research process – using sources and communicating information. You will practice your ability to

- use information to answer a research question,
- organize and write information clearly, and
- use APA style citations and references.

**Task:** Using the sources from your “Evaluating Sources Effectively” assignment, you will create an infographic about your research question. Infographics are a visual representation of information, data, or knowledge. They have three main parts:

- visual (color, graphics/images, layout);
- content (data/facts); and
- knowledge (analysis of data/facts).

Through your infographic, you will try to answer your research question using information from your sources. You will present your infographic to your peers on the final day of class.

**Reflective Paper – 15%**

**Purpose:** Through a reflective paper, you will begin to develop your ability to

- think critically;
- summarize key concepts; and
- express your ideas about course concepts.

Translations of marks to Letter Grade:
This course uses a Final Percentage Calculation converted to a letter grade. Evaluative components will receive numerical scores converted based on the weight of the assignment. The numerical scores are added to achieve a total percentage score out of 100. This percentage is then converted to a letter grade for the course (see above Grading Scale). Sample: discussion posts are 30%, in-class learning tasks are 30%, critical reading assignment is 20%, and infographic assignment is 20%. The student scored 25/30; 28/30; 15/20; and 20/20 for a final course total score of 88/100, which is a final course grade of “A-.”

ATTENDANCE
Regular attendance is advised for students in all courses and there is no regulation that precludes an instructor from taking attendance in the class. The University has directed that attendance will not be considered when assessing a student's grade except in courses where class participation is a required component of the course. For further information, please refer to the official online University of Calgary 2021-2022 Calendar, Academic Regulations, E. Course Information, E.3: Attendance: https://www.ucalgary.ca/pubs/calendar/current/e-3.html

If a student is absent from a course the student may be asked to provide documentation regarding the absence. Students may be asked to provide supporting documentation for an exemption/special request. This may include but is not limited to a prolonged absence from a course where participation is required, a missed course assessment, a deferred examination, or an appeal. Students are encouraged to submit documentation that will support their situation. The decision to provide supporting documentation that best suits the situation is at the discretion of the student. Students cannot be required to provide specific supporting documentation, such as a medical note.

For additional information on supporting documentation, see section https://www.ucalgary.ca/pubs/calendar/current/m-1.html

Turnitin
Turnitin is an online program that is available to all UCQ students. It helps students become better writers by producing an Originality Report that identifies possible plagiarism problems. Students can use this report to improve their paraphrasing and summarizing skills.
Instructors at UCQ may require the submission of a Turnitin Originality Report along with a written assignment. Before submitting the report to their instructor, students will have the opportunity to submit and revise multiple drafts of an assignment in order to resolve any issues with paraphrasing and summarizing.

When a UCQ student’s work is submitted to Turnitin, it is submitted to the Turnitin database. The database is confidential; students retain the copyright to their work, and student work cannot be viewed by other students or instructors. However, students’ work will be stored and compared to future student submissions.

**Note:** If a UCQ student has concerns about his or her work being stored in the Turnitin database, it is his or her responsibility to discuss these concerns with his or her instructor or the Associate Dean (Academic).

**USE OF TECHNOLOGY IN ACWR 201**
The use of laptop and cell phone devices is acceptable when used in a manner appropriate to the course and classroom activities. Students are to refrain from accessing websites that may be distracting for fellow learners (e.g. personal emails, Instagram, Snapchat, Facebook, YouTube, etc.) except when directed by the instructor for in-class activities.

**ACADEMIC WRITING**
The University supports the belief that throughout their University careers, students should be taught how to write well; therefore, written assignments in this course will be evaluated based on the required elements as well as quality of academic writing.
