### **Course Description**

An introduction to professional and technical communication in diverse media. Examines the rhetorical dimensions of workplace settings as well as the process of planning, composing and delivering professional and technical communication for various audiences.

### **Additional Information**

This course is delivered entirely online, with no scheduled lectures.

Students are encouraged to attend the Instructor's scheduled weekly virtual office hours via Zoom to discuss any aspect of the course, such as readings and assignments.

The weekly schedule of Assigned Reading Chapters can be found at the end of this outline and on D2L. Students are responsible for reading and following all course and university policies discussed in this outline. The course involves some group work.

The timeline for this course is shorter than Fall or Winter sessions and the pace is faster. Note that the first few weeks of the course are reading intensive so you can get a firm grasp on the content and apply it to course projects.

### **Objectives of the Course**

By the end of this course students should be able to:

- Approach workplace communication rhetorically, focusing not only on their purpose in writing but also on the needs and expectations of their audience and considering the ethical dimensions and other relevant features of the writing context.

- Structure information, format and produce basic workplace document genres, including formal and informal reports, proposals, letters, memos, emails, resumes, instructions, technical descriptions and, optionally, websites.
- Write and design effective print and online documents, using headings, lists, well-crafted paragraphs, and white space.
- Effectively use, design, and present figures and tables.
- Conduct secondary research (locating relevant sources using the U of C library search tools online).
- Effectively use and correctly cite information from sources using a citation style appropriate to the course audience, ideally APA and/or IEEE style.
- Edit documents to eliminate common writing errors.
- Work effectively in a small group.

## Expectations for Writing

Department policy directs that all written assignments and, to a lesser extent, written exam responses be assessed at least partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization and proper documentation of research sources. ## Grading & Department of Communication, Media and Film Grade Scale

The following table outlines the grade scale percentage equivalents used in the Department of Communication, Media and Film. Final grades are reported as letter grades. For components graded using percentages or numerical scores, those values will be used directly in calculating the final course grade, while for components graded using letter grades, the letter grades will be converted to the midpoint values listed in the final column of the table below in calculating the final course grade.

In this course, percentage grades will be used for all assignments.

Grade Point Value	Description	Grade	Dept of CMF grade scale equivalents*	Letter grade % equivalent for calculations*
<b>4.00</b>	Outstanding performance	<b>A+</b>	96 - 100%	98.0%

\* Column 4: If percentages are used to calculate final grades, then grades falling within these ranges will be translated to the corresponding letter grades. Column 5: These percentage equivalents will be used for calculating final grades unless an alternative method of final grade calculation is outlined above.

## Plagiarism

Using any source whatsoever without clearly documenting it is a serious academic offense. Consequences include failure on the assignment, failure in the course and possibly suspension or expulsion from the university. These requirements apply to all assignments and sources, including those in non-traditional formats such as Web pages, A.I. content generators, or visual media.

Students must adhere to the instructor's course policy regarding the use of A.I. generated content in course work. Unsanctioned use of A.I. generated content in course work may be reported as academic misconduct.

You must document not only direct quotations but also paraphrases and ideas where they appear in your text. A reference list at the end is insufficient by itself. **In-text citations must be provided, and readers must be able to tell exactly where your words and ideas end and other people's words and ideas begin.** Wording taken directly from a source must be enclosed within quotation marks (or, for long quotations, presented in the format prescribed by the documentation style you are using). Paraphrased information must not follow the original wording and sentence structure with only slight word substitutions here and there.

For information on citation and documentation styles (MLA, APA, Chicago, IEEE, etc.), visit the Student Success Centre resource links at <https://ucalgary.ca/student-services/student-success/writing-support> or the Purdue Online Writing Lab (OWL) Research and Citation Resources at [https://owl.purdue.edu/owl/research\\_and\\_citation/resources.html](https://owl.purdue.edu/owl/research_and_citation/resources.html)

If you need help with your writing or have questions about citing sources, please consult your instructor or visit the Student Success Centre, 3<sup>rd</sup> floor, Taylor Family Digital Library. To book an appointment, go to <https://success.ucalgary.ca/home.htm>

Sharing of extracts of these course materials with other students enrolled in the same course section and term may be allowed under fair dealing. Check with the instructor if you have any questions about sharing materials with classmates.

All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright ([www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf](http://www.ucalgary.ca/policies/files/policies/acceptable-use-of-material-protected-by-copyright.pdf)) and requirements of the copyright act (<https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html>) to ensure they are aware of the consequences of unauthorized sharing of course materials (including instructor notes, electronic versions of textbooks etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy.
