**Course Description**

An introduction to professional and technical communication in diverse media. Examines the rhetorical dimensions of workplace settings as well as the process of planning, composing, and delivering professional and technical communication for various audiences.

**Additional Information**

This course is delivered entirely online, with no scheduled lectures.

Students are encouraged to attend the instructor’s scheduled weekly virtual office hours via Zoom to discuss any aspect of the course, such as readings and assignments.

The weekly schedule of Assigned Reading Chapters can be found on D2L. Students are responsible for reading and following all course and university policies discussed in this outline.

The course involves collaborative group work. Note that the part of the course is reading intensive so you can get a firm grasp of the content and apply it to course projects.
Objectives of the Course

Students who successfully complete the course should know how to:

• approach workplace communication rhetorically, focusing not only on their purpose in writing but also on the needs and expectations of their audience and considering the ethical dimensions and other relevant features of the writing context.

• format basic workplace communication genres, including formal reports, proposals, letters, memos, emails, and, optionally, résumés, instructions, technical descriptions, and websites.

• work effectively and cooperatively in groups.

• write and design effective print and online documents, using headings, lists, well-crafted paragraphs, and white space.

• effectively design and use figures and tables.

• conduct secondary research (using the U of C library search tools online). Depending on the focus of the recommendation report assignment, students may also be expected to know how to construct and present results from a simple empirical study (e.g., a small-scale usability study involving testing, interviews, or surveys).

• effectively use and correctly cite information from sources using the latest version of either APA or IEEE style (or both).

• edit documents to eliminate common writing errors and weaknesses.

• design effective PowerPoint slides.

### Grading & Department of Communication, Media and Film Grade Scale

The following table outlines the grade scale percentage equivalents used in the Department of Communication, Media and Film. Final grades are reported as letter grades. For components graded using percentages or numerical scores, those values will be used directly in calculating the final course grade, while for components graded using letter grades, the letter grades will be converted to the midpoint values listed in the final column of the table below in calculating the final course grade.

In this course, letter grades will be used for written assignments, while points will be awarded for all the weekly activities.

### Plagiarism

Using any source whatsoever without clearly documenting it is a serious academic offense. Consequences include failure on the assignment, failure in the course and possibly suspension or expulsion from the university. These requirements apply to all assignments and sources, including those in non-traditional formats such as Web pages or visual media.

You must document not only direct quotations but also paraphrases and ideas where they appear in your text. A reference list at the end is insufficient by itself. **In-text citations must**
be provided, and readers must be able to tell exactly where your words and ideas end and other people's words and ideas begin. Wording taken directly from a source must be enclosed within quotation marks (or, for long quotations, presented in the format prescribed by the documentation style you are using). Paraphrased information must not follow the original wording and sentence structure with only slight word substitutions here and there.

For information on citation and documentation styles (MLA, APA, Chicago, IEEE, etc.), visit the Student Success Centre resource links at https://ucalgary.ca/student-services/student-success/writing-support or the Purdue Online Writing Lab (OWL) Research and Citation Resources at https://owl.purdue.edu/owl/research_and_citation/resources.html

If you need help with your writing or have questions about citing sources, please consult your instructor or visit the Student Success Centre, 3rd floor, Taylor Family Digital Library. To book an appointment, go to https://success.ucalgary.ca/home.htm
